

# Pool Lifeguards Needed

A&B Pool Services is hiring **lifeguards for the upcoming pool season**, and we are looking for responsible high school students from our community.

Lifeguarding is a great first job that teaches responsibility, leadership, and safety skills while allowing students to work close to home and alongside friends from the neighborhood.

Students do **not need to be certified yet** — A&B Pool Services can help them obtain their **American Red Cross Lifeguard Certification** before the season begins.

If your student is interested in a summer job at the neighborhood pool, we encourage them to apply.

Applications are available at:
